

## Spam Filter Eliminate Irritating Emails

Its no secret that many email users detest spam. Spam is a time consuming nuisance that nobody wants to deal with, it can infest your emails, wasting valuable space.

Reduce time spent on junk mail by using the most demanded application on the Internet. Spam Filter is designed to destroy spam not your email. **iSelect Internet** Spam Filter leaps ahead of the anti-spam pack by solving the worst spam killer issues while you:

1. Continue receiving good, legitimate mail
2. Benefit from more current and effective filtering in two modes: normal and aggressive
3. Experience tremendous ease-of-use when activating Spam filter

**RELIABILITY**- Spam Filter is more reliable and aggressive. Its new advanced technologies avoid black list filtration by learning and remembering legitimate sender profiles thus eliminating false spam screening. You will continue to receive the email you want, while junk mail is eliminated. Plus, you benefit from more current and effective filtering in two modes: normal and aggressive.

**SIMPLICITY**- Spam Filter is easy to use because it works with **iSelect Internet's** EasyMail system. Simply login to your WebsiteOS or personal mail and perform a few simple steps to reduce your spam infestation.
