

WebMail Professional™ Making Webmail Easier

Are you looking for a WebMail program that will provide you with a feature rich and easy-to-use interface and endless functionality? With WebMail Professional, you and your staff can do just that with a single web-based interface. This feature can provide you with access to your email inbox, sent items, drafts, and deletions; appointment schedule; and task and contact management tools through any Internet Explorer and Netscape browsers, at any time.

WebMail Professional provides you with:

- The ability to access your inbox via a web interface
- The ability to access your emails and time management tools from home, work, or while traveling, anywhere in the world and at any time
- An easy-to-use interface designed with the beginner and advanced user in mind. All user levels can figure this system out in minutes!
- The ability to use WebMail Professional as a replacement to your Outlook style program

Accessing email and time management tools with WebMail Professional, from anywhere at anytime couldn't be easier for you!

FLEXIBLE- This powerful easy-to-use Web-email system allows beginners or advanced users to incorporate their WebMail with scheduling, task management, contact management, and POP3/IMAP access.

ACCESSIBLE- WebMail Professional can be accessed anywhere and at any time using an Internet browser. Whether you are at home, in the office, or traveling on business; WebMail Professional can be access by simply logging on to the Internet. You will have full access to all WebMail Professional features including email, calendar and task management tools, contacts, and more.

SIMPLE- WebMail Professional is perfect for every user level. This feature rich, easy-to-use application is designed for beginner and advanced user's alike. The simple interface has an easy navigational process and no special training is required. If help is required, an online help system is available to guide you and your staff through all of the WebMail Professional functions.
