

Web Hosting

The Easiest Way to get Your Business Online

It used to be that a business had to be big to get a Website. That's not the case now with **iSelect Internet** -- the most reliable, economical and easy way to get your company's website up and running, trouble-free.

Web Hosting Overview

If your company has business cards, sales literature and people, it needs a Website. Your online window to the world is the means by which customers, prospects and partners wish to view you, even as just a complement to letters, faxes and the more traditional ways of communicating.

To a company new to the Internet, getting a Website can be a confusing experience, and often costly. That isn't the case with **iSelect Internet**. Our packages start from the basics: getting you a domain name, which is your "dot-com" address. You can have your first Website up in minutes with little costs involved. If you already have a Website hosted in-house or with another supplier, you may be paying too much and not getting the features and reliability you need. Try out our online demo to see what you just might be missing.

It starts with your Domain

Getting your company domain name registered is as easy as filling out a simple form. Just go to www.iselect.net and enter your desired name into the display window. In seconds we'll confirm whether the name you've chosen is available. A few easy steps later and the name will be yours. Your company is ready to go online!

Choose a Web Hosting Package

From a basic online business card to a full-blown e-commerce enabled online store, **iSelect Internet** has the package to meet your needs. You can start with a basic package and upgrade anytime. Whichever plan you choose, you'll know that your Website will be up and running quickly and with ongoing reliability of 99.9% uptime. And you can manage your Website with ease thanks to WebsiteOS™, our powerful yet simplified "control panel" that makes "website management" as easy as using a word processor!

Single Domain Name: Email Only Hosting

Based on a single domain package, our Email packages include personal mail (end user access to personal settings), POP, IMAP, SMTP and WebMail.

| PRICE TABLE (Prices in USD) | Web Basic | Weblite | Bronze | Bronze ASP | Silver Lite | Silver | Gold | Platinum | Platinum Plus |
