## Secure Online Backup - If your computer will last forever, don't read this!

Now, for those of you with a firm grasp on reality, here's some eye opening information.

- ✓ The average failure rate of disk and tape drives is 100%. All drives eventually fail. In most failures, files are lost.
- ✓ It takes 19 days & costs \$17,000 to re-type 20 megabytes of sales data.
- ✓ The same volume of accounting data takes 21 days and costs \$19,000.
- ✓ Most small businesses don't have a backup plan that fully protects them. Many go out of business after a catastrophic loss of data.
